myCareSignals – Terms of Use

Last updated: 28 January 2026

Welcome to myCareSignals, an online outcome, key-working and child-voice tracking platform designed for children's residential homes and similar care settings (the "Service"). These Terms of Use explain our responsibilities as the service provider and your responsibilities as a customer or authorised user. Please read them carefully.

By creating an account, logging in, or using myCareSignals in any way, you agree to these Terms of Use ("Terms") on behalf of yourself and any organisation you represent. If you do not agree, you must not use the Service.

1. About myCareSignals

1.1 myCareSignals is operated by MyCareSignals Ltd ("we", "us" or "our"). Our core aim is to help providers improve the wellbeing and outcomes of children in their care by giving teams a structured, easy-to-understand way of recording goals, daily signals, key-working notes and the child's own voice.

1.2 The Service provides tools to capture and visualise information such as:

- Baseline profiles and priority domains for each child;
- Goals, targets and key-working actions agreed in placement or review meetings;
- Daily or weekly scores on wellbeing and progress; and
- Check-ins, child-voice comments and notes about important events.

1.3 myCareSignals is designed to support professional judgement, not replace it. The dashboards, graphs and summaries reflect the information entered by your team. They must always be interpreted in the context of your own policies, the child's history and wider professional assessments.

2. Clinical and safeguarding disclaimer

2.1 myCareSignals is not a diagnostic, clinical or therapeutic assessment. It does not provide psychological advice, risk assessment or treatment planning, and it must not be used as the sole basis for safeguarding or placement decisions.

2.2 Decisions about risk, care planning, placement suitability and specialist referrals remain your responsibility and must follow your organisation's policies, relevant

legislation and the guidance of qualified professionals (for example social workers, registered managers, clinicians or supervising psychologists).

2.3 If you are concerned about a child's safety, mental health or behaviour, you must follow your local safeguarding procedures and seek urgent help from appropriate services. You must not rely on myCareSignals as an emergency or crisis-response system.

3. Accounts and authorised users

3.1 The contracting customer (for example, a provider organisation or local authority) will be set up as the "Subscriber". The Subscriber controls who can use the Service on its behalf and the level of access they have. Any such person is an "Authorised User".

3.2 The Subscriber is responsible for:

- Ensuring only appropriate staff are granted access;
- Keeping user lists, permissions and leaver access up to date; and
- Making sure all Authorised Users understand and comply with these Terms.

3.3 All usernames, passwords and access keys must be kept secure and not shared. You must tell us promptly if you suspect unauthorised access to any account.

3.4 You must not attempt to gain access to any part of the Service or any data that you are not authorised to view. You must not probe, scan, interfere with or disrupt the Service or its underlying infrastructure.

4. Your responsibilities when using the Service

4.1 You may use myCareSignals only for lawful purposes and only in connection with your legitimate care, education or commissioning activities. You must comply with all applicable laws and regulatory requirements (for example Ofsted regulations, data protection law and your own safeguarding policies).

4.2 You are responsible for the quality, accuracy and legality of the information entered into myCareSignals by your staff or on your behalf. You must ensure that entries are respectful, factual and appropriate for a professional care record.

4.3 You must not upload or enter any content that is unlawful, defamatory, discriminatory, offensive, threatening or otherwise inappropriate. We reserve the right to remove such content or suspend access where necessary to protect children, staff or the integrity of the Service.

4.4 You must maintain your own internal records (for example full case files, incident reports and statutory documents). myCareSignals is not intended to be a complete electronic care record system.

5. Data protection and confidentiality

5.1 Each party will comply with applicable data protection legislation, including the UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018.

5.2 We act as a data processor for child-level information that you input into the Service (such as initials, dates of birth, scores and notes), and as a data controller for platform-level information such as account details, usage logs and billing information. The detailed roles and obligations are set out in our Privacy Policy and any separate Data Processing Agreement we sign with you.

5.3 We expect customers to minimise the use of directly identifying information in routine views (for example using initials or internal IDs instead of full names in dashboards), while still meeting their legal record-keeping duties. Where you choose to include personal data in notes or uploads, you are responsible for ensuring you have a lawful basis to do so and that staff are trained appropriately.

5.4 We will implement appropriate technical and organisational measures to protect data against unauthorised or unlawful processing, accidental loss, destruction or damage. Further details are set out in our Privacy Policy and security documentation.

5.5 We treat all information you store in myCareSignals as confidential. We will not access or disclose your data except:

- As strictly necessary to provide the Service, support or maintenance;
- To comply with a legal obligation, regulatory requirement or court order; or
- Where you explicitly ask us to share data with another system or partner.

5.6 We may create anonymised and aggregated statistics from usage data (for example to understand trends or improve the product). These statistics will not identify any individual child, staff member or home.

6. Fees and payment

6.1 myCareSignals is typically billed on a subscription basis (for example per home, per child or per user) as set out in your order form or contract. All fees are exclusive of VAT unless stated otherwise.

6.2 Invoices are payable within the period specified on the invoice. If payment is late, we may charge interest and/or suspend access to the Service until outstanding amounts are paid.

6.3 You remain responsible for all charges incurred under your subscription until it is terminated in line with these Terms or your main contract. We do not usually give refunds for unused portions of a subscription period.

7. Intellectual property

7.1 All intellectual property rights in the Service, the myCareSignals name and logo, our designs, code, documentation and training materials belong to us or our licensors. Except for the limited right to use the Service under these Terms, no rights are transferred to you.

7.2 You retain all rights in the content and information you or your staff input into myCareSignals ("Customer Data"). You grant us a non-exclusive licence to use, host, copy and back-up Customer Data as needed to provide the Service and to meet our legal obligations.

7.3 You must not copy, modify, reverse engineer, resell, frame, or create derivative works from the Service, nor may you use it to build a competing product.

8. Service availability and support

8.1 We aim to provide a reliable, responsive service with appropriate backups and monitoring. However, there may be times when the Service is unavailable for planned maintenance or due to events outside our reasonable control (for example network failures or data-centre incidents).

8.2 We will use reasonable efforts to notify administrators of planned maintenance that is likely to cause more than a brief interruption.

8.3 Basic support is normally provided by email or ticketing system during published support hours. Additional support, training or configuration services may be available by separate agreement.

9. Limitation of liability

9.1 Nothing in these Terms limits or excludes liability for death or personal injury caused by negligence, fraud, or any other liability that cannot lawfully be limited or excluded.

9.2 Subject to clause 9.1, we will not be liable for: loss of profits; loss of revenue; loss of data where you have not maintained your own backups or exports; loss of business opportunity; or any indirect or consequential loss.

9.3 Subject to clause 9.1, our total aggregate liability to you arising out of or in connection with the Service (whether in contract, tort, negligence or otherwise) in any 12-month period will not exceed the total fees paid or payable by you for the Service in that period.

9.4 You remain responsible for how you interpret and act on any information from myCareSignals. We are not responsible for clinical, safeguarding or placement decisions taken by you or your staff.

10. Term and termination

10.1 These Terms apply for as long as you have an active myCareSignals account or subscription, unless replaced by a separate written agreement signed by both parties.

10.2 Either party may terminate the subscription at the end of the current billing period by giving the amount of notice set out in the order form or contract (or, if not specified, at least 30 days' written notice).

10.3 We may suspend or terminate access immediately if you materially breach these Terms, fail to pay fees when due, misuse the Service, or if continuing to provide access would create a serious risk to children, staff, our infrastructure or other customers.

10.4 On termination, your access to the Service will cease. We will retain or delete Customer Data in line with our data retention policy and any obligations agreed with you in a Data Processing Agreement. We recommend exporting any reports or summaries you wish to keep before your subscription ends.

11. Changes to the Service or these Terms

11.1 We continually improve myCareSignals and may add, change or remove features from time to time. We will avoid making changes that materially reduce core functionality during a paid-up subscription period without reasonable notice.

11.2 We may update these Terms from time to time. When we do, we will post the updated version in the app or on our website and, where appropriate, notify administrators by email. If you continue to use the Service after the effective date of any changes, you are deemed to have accepted the updated Terms.

12. General

12.1 If any provision of these Terms is found to be invalid or unenforceable, the remaining provisions will remain in full force and effect.

12.2 You may not assign or transfer your rights or obligations under these Terms without our prior written consent. We may assign our rights and obligations (for example as part of a corporate reorganisation or sale of the business) provided this does not materially reduce your protections.

12.3 These Terms, together with any order form, contract, Privacy Policy and Data Processing Agreement, set out the entire agreement between us in relation to the Service and supersede any previous discussions or understandings.

12.4 These Terms and any disputes arising out of them are governed by the laws of England and Wales. The courts of England and Wales will have exclusive jurisdiction over any dispute.

13. Contact

If you have any questions about these Terms or about myCareSignals generally, please contact us at:
